Junkspace with Running Room-Rem Koolhaas

2016-09-13 Junkspace first appeared in the Harvard Design School Guide to Shopping (2001), a vast compendium of text, images, and data concerning the consumerist transformation of city and suburb from the first department store to the latest mega mall. The architect Rem Koolhaas itemized in delirious detail how our cities are being overwhelmed. His celebrated jeremiad is updated here and twinned with Running Room, a fresh response from the cultural critic Hal Foster. Junkspace describes the bleak and featureless world of capitalism, while Running Room seeks to find a space within the junk in which the individual might still exist.

God on the Rocks-Jane Gardam 2008-08-07 During one glorious summer between the wars, the realities of life and the sexual ritual dance of the adult world creep into the life of young Margaret Marsh. Her father, preaching the doctrine of the unsavoury Primal Saints; her mother, bitterly nostalgic for what might have been; Charles and Binkie, anchored in the past and a game of words; dying Mrs Frayling and Lydia the maid, given to the vulgar enjoyment of life; all contribute to Margaret's shattering moment of truth. And when the storm breaks, it is not only God who is on the rocks as the summer hurtles towards drama, tragedy, and a touch of farce.

Motor City-Charles River Editors 2019-05-10 *Includes pictures *Includes a bibliography for further reading Few cities epitomize the best and worst of the United States like Detroit, which started as a remote trading post and grew into an industrious town before exploding into a bustling city. That city then fell, leaving a legacy of anger and despair only recently beginning to turn things around. At the same time, the same mighty city that proved capable of arming a nation at war found itself seething with social conflict. The massive labor force fought hard for their rights, as did the African-Americans fleeing Jim Crow in the South. Through conflict, compromise, and industry, Detroit, but like many others across the nation, the city failed to prepare for a post-industrial age, and the once prosperous city descended into disrepair and disuse. From that despair came anger, then resolution. Detroit would rebuild, and though those efforts were in many ways successful, the city is still reaching for its former glory. **Motor City: The History of the Fur Trade Outpost that Became Detroit** looks at the history of one of the Midwest's biggest cities. Along with pictures of important people, places, and events, you will learn about Detroit like never before.

New Orleans, Mon Amour-Andrei Codrescu 2006-01-31 For two decades NPR commentator Andrei Codrescu has been living in and writing about his adopted city, where, as he puts it, the official language is dreams. How apt that a refugee born in Transylvania found his home in a place where vampires roam the streets and voodoo queens live around the corner; where cemeteries are the most popular picnic spots, the ghosts of poets, prostitutes, and pirates are

palpable, and in the French Quarter, no one ever sleeps. Codrescu's essays have been called "satirical gems," "subversive," "sardonic and stunning," "funny," "gonzo," "wittily poignant," and "perverse"—here is a writer who perfectly mirrors the wild, voluptuous, bohemian character of New Orleans itself. This retrospective follows him from newcomer to near native: first seduced by the lush banana trees in his backyard and the sensual aroma of coffee at the café down the block, Codrescu soon becomes a Window Gang regular at the infamous bar Molly's on Decatur, does a stint as King of Krewe de Vieux Carré at Mardi Gras, befriends artists, musicians, and eccentrics, and exposes the city's underbelly of corruption, warning presciently about the lack of planning for floods in a city high on its own insouciance. Alas, as we all now know, Paradise is lost. New Orleans, Mon Amour is an epic love song, a clear-eyed elegy, a cultural celebration, and a thank-you note to New Orleans in its Golden Age.

Great Leap Forward-Chuihua Judy Chung 2001

Harvard Design School's Project on the City is a graduate thesis program that examines the effects of modernization on the urban condition. Each year the Project on the City studies a specific region or phenomena, & develops a conceptual framework & vocabulary for urban environments that can not be described within the traditional categories of architecture, landscape, or urbanism. In order to understand new forms of urbanization, thesis advisor Rem Koolhaas & students from the fields of architecture, landscape, & urbanism, document & analyze areas of study through a combination of field research, statistical analysis, historical developments, & anecdotal situations. The result of each project is an intensive, specialized study of the effects of modernization on the contemporary city. During the 1996-1997 period, Harvard's graduate students studied China's Pearl River Delta (PRD), a cluster of five cities with a population of twelve million destined to reach thirty-six million by the year 2020. The establishment in the PRD of Special Economic Zones--"laboratories for the contained unleashing of capitalism"--hastened an unprecedented experiment in urbanization on an astonishingly large scale. Great Leap Forward contains essays which explore, in a theoretical & statistical context, the results of this rapid modernization that has produced an entirely new urban substance.
