Life of Tecumseh, and of His Brother the Prophet-Benjamin Drake 2018-08-15 Life of Tecumseh, and of His Brother the Prophet by

Benjamin Drake There is a tradition among the Shawanoes, in regard to their origin, which is said to be peculiar to that tribe. While most of the aborigines of this country believe that their respective races came out of holes in the earth at different places on this continent, the Shawanoes alone claim, that their ancestors once inhabited a foreign land; but having determined to leave it, they assembled their people and marched to the sea shore. Here, under the guidance of a leader of the Turtle tribe, one of their twelve original subdivisions, they walked into the sea, the waters of which immediately parted, and they passed in safety along the bottom of the ocean, until they reached this island. Anthropomorphic Depictions of God (French Language)-Zulfiqar Ali Shah 2017-01-01 This monumental study examines issues of anthropomorphism in the three Abrahamic Faiths, as viewed through the texts of the Hebrew Bible, the New Testament and the Qur'an. Throughout history Christianity and Judaism have tried to make sense of God. While juxtaposing the Islamic position against this, the author addresses the Judeo-Christian worldview and how each has chosen to framework its encounter with God, to what extent this has been the result of actual scripture and to what extent the product of theological debate, or church decrees of later centuries and absorption of Hellenistic philosophy. Shah also examines Islam's heavily anti-anthropomorphic stance and Islamic theological discourse on Tawhid as well as the Ninety-Nine Names of God and what these have meant in relation to Muslim understanding of God and His attributes. Describing how these became the touchstone of Muslim discourse with Judaism and Christianity he critiques theological statements and perspectives that came to dilute if not counter strict monotheism. As secularism debates whether God is dead, the issue of anthropomorphism has become of immense importance. The quest for God, especially in this day and age, is partly one of intellectual longing. To Shah, anthropomorphic concepts and corporeal depictions of the Divine are perhaps among the leading factors of modern atheism. As such he ultimately draws the conclusion that the postmodern longing for God will not be quenched by pre-modern anthropomorphic and corporeal concepts of the Divine which have simply brought God down to this cosmos, with a precise historical function and a specified location, reducing the intellectual and spiritual force of what God is and represents, causing the soul to detract from a sense of the sacred and thereby

belief in Him.

Conceptualising Community-D. Studdert 2005-12-06 Community is the dark shadow of sociology - an issue around which sociologists always duck and dive. This book examines the reasons for this reticence through an exegesis of contemporary debates. Additionally it utilizes the work of Hannah Arendt to propose an alternative anti-mechanistic and anti-essentialist approach to community and sociality; an approach that not only moves beyond Foucault and his oppositional work but also offers perhaps the basis for a different approach to politics.

The Antibody-Julio Jose Ordovas 2016-07-22 A mysterious character from the city arrives at a peaceful country village, attracting the interest of Josu, a young adolescent. José Luis, the newly arrived vicar, is the ideal mentor for any rebellious boy with a curious heart. More comfortable sneaking around and spying on people from the rooftops, than playing with others in the mud, Josu delves into the memories of the newly arrived vicar's troubled past. "I smiled and my fangs glistened. I put the rifle back in its place and grabbed the tightly knotted sack with the chicken inside. As I had imagined, he didn't have the guts to open it." Julio José Ordovás' skillfully woven and fearless narrative tells of an unlikely friendship between two rebellious characters at different times in their lives. His debut novel promises an unrestrained, uncensored narration, leaving nothing untold. Taken from the adult Josu's perspective, this nostalgic narration demonstrates the author's striking ability to present a spectrum of human emotions with distinct ironic undertones.

Multidimensional Dowsing Questions:-Henry
Dowser 2015-01-20 Here is a yes/no question to
ask, or dowse, about this book: Would this book
be worth at least 100 times what I paid for it, to
me? If the answer is "no," I recommend you not
get it. If the answer is "yes," you can make the
decision to get it. The questions we ask form our
lives. We are the crystallization of the questions
we ask. This book offers tools to dowse in new
ways, and even shape one's life,
multidimensionally. Tony Robbins discusses
Power Questions, however he, and other authors,
only offer a few examples, in their books, of the
kind of questions in this book. This book offers
numerous kinds of questions, enough that you
can notice the patterns, and ask your own
multidimensional dowsing questions, beyond
what is listed here. You can dowse the pages, for
the right question for you, also, if you wish. This

book has a few thousand times as many
multidimensional dowsing questions as any other
book we've ever read on the subject. We have not
found any other book quite like this one. Some
dowsers say that dowsing is intuition with a
readout device. So it is. Multidimensional
dowsing moves through this, into direct knowing,
with the entire Universe as the readout device. I
sometimes read books where I know most of
what's in them. That is not so interesting. I much
prefer books that have tantalizing hints of
awareness outside of my comfort zone, that are
confusing. I went through college feeling
confused, stupid, and in shock. I intentionally
kept myself in that state- by seeking out the new,
and unfamiliar, based on my fascinations. I knew
I was growing, if I felt that way. If I had felt like I
knew everything, already, that would have
indicated that I wasn't learning anything, that I
was decaying. There is no stability as such; there
is only growth, or decay. I chose growth. Life is a
series of problems to solve, or growth
opportunities. You can be in the fast class, or the
slow class. You choose... this book is for those
who want to advance, quickly, in fun ways,
learning to use questions to open up
multidimensional awareness. Traditionally,
seekers would find those who were "farther down
the path," Sensei, in Japanese, and learn from
them. In our rushed, modern culture, books can
do some of what the masters used to do. This is
at least more efficient. I was always seeking
spiritual masters when I was younger, and very
frustrated when they didn't show up. I read as
many books as I could, figuring that while I was
waiting, I could at least prepare myself. When
the student is ready, the teacher appears, right?
And for me, when the student was ready, the
teaching appeared, only I didn't realize the books
were the teacher. Multidimensional dowsing
questions bring in new possibilities, open portals,
return us to our true selves, shape our lives,
suggest new paths, take us down our life path,
take us out of work and into play, widen
awareness, and take us into multidimensional
reality. They are a fun way to play with the
Universe, and move into and explore previously
unknown areas, using dowsing. As the second
book in the series, this offers a number of new
questions not listed in the previous volume.
