Karachi-Laurent Gayer 2014 With an official population approaching fifteen million, Karachi is one of the largest cities in the world. It is also the most violent. Since the mid-1980s, it has endured endemic political conflict and criminal violence, which revolve around control of the city and its resources (votes, land and bhatta-"protection" money). These struggles for the city have become ethnicized. Karachi, often referred to as a "Pakistan in miniature," has become increasingly fragmented, socially as well as territorially. Despite this chronic state of urban political warfare, Karachi is the cornerstone of the economy of Pakistan. Gayer's book is an attempt to elucidate this conundrum. Against journalistic accounts describing Karachi as chaotic and ungovernable, he argues that there is indeed order of a kind in the city's permanent civil war. Far from being entropic, Karachi's polity is predicated upon organisational, interpretative and pragmatic routines that have made violence "manageable" for its populations. Whether such "ordered disorder" is viable in the long term remains to be seen, but for now Karachi works despite-and sometimes through-violence.

The Art Salon in the Arab Region-Monique

Bellan 2019-03 This volume discusses the emergence and role of the art salon in the Arab region in the nineteenth and twentieth centuries, focusing on Algeria, Tunisia, Egypt, Lebanon and Iraq. Institutional forms of exhibiting and teaching art emerged in the Middle East and North Africa in late colonial and early post-colonial contexts. The book examines how the salon had an impact on the formation of taste and on debates on art, and discusses the transfers and cultural interactions between the Middle East, North Africa and Europe. Following the institutional model of the Paris salons, art salons emerged in Algiers, Tunis and Cairo starting in the late 1880s. In Beirut, the salon tradition reached its peak only after independence in the mid-twentieth century. Baghdad never had a formal salon, but alternative spaces and exhibition formats developed in Iraq from the late 1940s onwards. As in Paris, the salons in the region often defined the criteria of artistic production and public taste. The impact of the salon also lay in its ability to convey particular values, attitudes and aspirations. At the same time, the values and attitudes promoted by the salon as well as the salon itself were often subject to debate, which led to the creation of counter-salons or alternative exhibition practices. The art salon helps us to understand changes in the art systems of these countries, including the development of art schools, exhibition spaces and artist societies, and gives insight into the power dynamics at play. It also highlights networks and circulations between the Arab region and Europe.

The History and Power of Writing-Henri-Jean Martin 1994 Continuing on to the electronic revolution, Martin's account takes in the changes wrought on writing by computers and electronic systems of storage and communication, and offers surprising insights into the influence these new technologies have had on children born into the computer age. The power of writing to influence and dominate is, indeed, a central theme in this history, as Martin explores the processes by which the written word has gradually imposed its logic on society over four thousand years. The summation of decades of study by one of the world's great scholars on the subject, this fascinating account of writing explains much about the world we inhabit, where we uneasily confer, accept, and resist the power of the written word.

Invisible Storytellers-Sarah Kozloff 1989-11-03 "Let me tell you a story," each film seems to offer silently as its opening frames hit the screen. But sometimes the film finds a voice—an off-screen narrator—for all or part of the story. From *Wuthering Heights* and *Double Indemnity* to *Annie Hall* and *Platoon*, voice-over narration has been an integral part of American movies. Through examples from films such as *How Green*

Was My Valley, All About Eve, The Naked City, and Barry Lyndon, Sarah Kozloff examines and analyzes voice-over narration. She refutes the assumptions that words should only play a minimal role in film, that "showing" is superior to "telling," or that the technique is inescapably authoritarian (the "voice of god"). She questions the common conception that voice-over is a literary technique by tracing its origins in the silent era and by highlighting the influence of radio, documentaries, and television. She explores how first-person or third-person narration really affects a film, in terms of genre conventions, viewer identification, time and nostalgia, subjectivity, and reliability. In conclusion she argues that voice-over increases film's potential for intimacy and sophisticated irony.

Forest of Pressure-Markus Nornes

"Extraordinarily valuable, illuminating, and even entertaining, Forest of Pressure brims with the types of information that only a key insider can get his hands on." —Mitsuhiro Yoshimoto, New York University Ogawa Productions—known in Asia as Ogawa Pro—was an influential filmmaking collective that started in the 1960s under the direction of Ogawa Shinsuke (1936–1992). Between 1968 and the mid-1970s, Ogawa Pro electrified the Japanese student movement with its Sanrizuka documentary series—eight films chronicling the massive protests over the construction of the Narita airport—which has since become the standard against which documentaries are measured in Japan. A critical biography of a collective, Forest of Pressure explores the emergence of socially committed documentary filmmaking in postwar Japan. Analyzing Ogawa Pro's films and works by other Japanese filmmakers, Ab Mark Nornes addresses key issues in documentary theory and practice, including individual and collective cinema production modes and the relationship between subject and object. Benefiting from unprecedented access to Ogawa Pro's archives and interviews with former members, Forest of Pressure is an innovative look at the fate of political filmmaking in the wake of the movement's demise. Ab Mark Nornes is associate professor of screen arts and cultures and Asian languages and cultures at the University of Michigan. He is a coordinator at the Yamagata International Documentary Film Festival and the author of Japanese Documentary Film: The Meiji Era through Hiroshima (Minnesota, 2003).

The Constitution in Exile-Andrew P. Napolitano 2007-03-18 What ever happened to our inalienable rights? The Constitution was once the bedrock of our country, an unpretentious parchment that boldly established the God-given rights and freedoms of America. Today that parchment has been shred to ribbons, explains Fox News senior judicial analyst Judge Andrew P. Napolitano, as the federal government trounces state and individual rights and expands its reach far beyond what the Framers intended. An

important follow-up to Judge Napolitano's best-selling Constitutional Chaos, this book shows with no-nonsense clarity how Congress has "purchased" regulations by bribing states and explains how the Supreme Court has devised historically inaccurate, logically inconsistent, and even laughable justifications to approve what Congress has done. It's an exciting excursion into the dark corners of the law, showing how do-gooders, busybodies, and control freaks in government disregard the limitations imposed upon Congress by the Constitution and enact laws, illegal and unnatural, in virtually every area of human endeavor. Praise for The Constitution in Exile from Left, Right, and Center "Does anyone understand the vision of America's founding fathers? The courts and Congress apparently don't have a clue. But Judge Andrew P. Napolitano does, and so will you, if you read The Constitution in Exile."-BILL O'REILLY "Whatever happened to states rights, limited government, and natural law? Judge Napolitano, in his own inimitable style, takes us on a fascinating tour of the destruction of constitutional government. If you want to know how the federal government got so big and fat, read this book. Agree or disagree, this book will make you think."-SEAN HANNITY "In all of the American media, Judge Andrew P. Napolitano is the most persistent, uncompromising guardian of both the letter and the spirit of the Constitution, very much including the Bill of Rights. Increasingly, our Constitution is in clear and present danger. Judge Napolitano--in The Constitution in Exile--has challenged all Americans across party lines to learn the extent of this constitutional crisis." -NAT HENTOFF "Judge Napolitano engages here in what I do every day on my program-make you think. There's no question that potential Supreme Court nominees and what our Constitution says and doesn't say played a major role for many voters in our last couple of elections. What the judge does here is detail why the federal government claims it can regulate as well as tax everything in sight as it grows and grows. Agree or disagree with him-you need to read his latest book, think, and begin to arm yourself as you enter this

important debate." -RUSH LIMBAUGH "At a time when we are, in Benjamin Franklin's words, sacrificing essential liberty to purchase a little temporary safety, here comes the judge with what should be mandatory reading for the executive branch cronies who are busy stealing power while they think we're not watching. Thank goodness the judge is watching and speaking truth to power. More than a book, this is an emergency call to philosophical arms, one we must heed before it's too late." -ALAN COLMES
