Temario Oposiciones: Geografía e Historia para educación

secundaria-Joaquín Riera Ginestar 2013-10-02 En este manual, fruto de la experiencia opositorial y docente, presentamos una serie de 72 temas de Geografía, Historia, Arte y Sociedad que tienen su base en los que se exige a los candidatos a profesores de Educación Secundaria en España. No obstante, el material diverso del libro se aleja de la densidad típica de los manuales al uso para los opositores. La voluntad del autor, profesor de instituto, es hacer accesible, tanto a examinandos como a docentes en ejercicio, tanto a alumnos de ESO como de Bachillerato y Universidad y al público interesado por las Humanidades en general, el conocimiento de unos contenidos del ámbito de las Ciencias Sociales de una manera clara, sintética y concisa, cercana a la esquematización pero sin caer en la simplificación. El rigor científico nunca es abandonado, siendo la bibliografía final prueba de ello. Confiamos que nuestro material ayude a superar pruebas selectivas, resuelva dudas y amplíe conocimientos de manera rápida y eficaz para enseñantes, alumnos y cualquiera que sienta curiosidad por las Ciencias Sociales.

Explanation and Understanding-von Wright Georg Henrik 2013-12-19

This volume distinguishes between two main traditions in the philosophy of science - the aristotelian, with its stress on explanation in terms of purpose and intentionality, and the galilean, which takes causal explanation as primary. It then traces the complex history of these competing traditions as they are manifested in such movements as positivism, idealism, Marxism and contemporary linguistic analysis. Hempels's theory of scientific explanation, the claims of cybernetics the rise of an analytic philosophy of action and the revival of hermeneutics are all discussed. The volume also deals with causal explanation, intentionality and teleological explanation, and explanation in history and the social sciences. The author concludes that explanation of human actions cannot be reduced to simple causality, and discusses the implications of this conclusion for the disciplines of history and sociology.

Hieronymus Bosch-Hans Belting 2016-03 Now available in a new edition, this book explores Hieronymus Bosch's masterpiece Garden of Earthly Delights. Few paintings inspire the kind of intense study and speculation as Garden of Earthly Delights, the world-famous triptych by Netherlandish master Hieronymus Bosch. The painting has been interpreted as a heretical masterpiece, an opulent illustration of the Creation, and a premonition of the end of the world. In this book, renowned art historian Hans Belting offers a radical reinterpretation of the work, which he sees not as apocalyptic but utopian, portraying how the world would exist had the Fall not happened. Taking readers through each panel, Belting discusses various schools of thought and explores Bosch's life and times. This fascinating study is an important contribution to the literature and theory surrounding one of the world's most enigmatic artists.

Wabi-Sabi - Photo School-Jana Mänz 2015-06-13 Wabi-Sabi Photo School The Beauty of Photography (Deutsch-English) Wabi-Sabi is a Japanese philosophic and aesthetic concept which has touched us in a deep way. With the help of our co-author, Japanese artist Natsuko Horinouchi-Podzimek, we created an ebook on how we can avail ourselves of the aesthetics of Wabi-Sabi for our photography. We see Wabi-Sabi as a way for us European photographers to free ourselves from the honey trap technology and perfection-mania set up for us. In Wabi-Sabi, there is room for "mistakes". The most important in Wabi-Sabi is not the perfect photograph but the expression and depth of the image. On the contrary! It is especially the absence of perfection - e.g. the light flares, the blurs, the haziness, the deep shadows - that transforms a prosaic photography into poetry. At the same time the philosophy of Wabi-Sabi is characterized by reduction, modesty, and a symbiotic relationship to nature. There is a truth behind Wabi-Sabi we always yearned to find in photography. In our e-Book "Wabi-Sabi - The beauty of photography" we show you how this concept can help you finding your very own way of photography which is characterized by more depth, substance, and emotions. Photography is more than just technology and fancy gadgets. We are convinced, that photography is pure passion, inspiration, and a wonderful way to express our emotions. So let yourself be inspired by the philosophy of an ancient culture. Find your very own photographic style with the help of our photographic exercises. Free yourself and be the artist you always wanted to be!
