Six Capitals Updated Edition-Jane Gleeson-White 2020-04-28 FULLY REVISED AND UPDATED 'A fascinating read. Gleeson-White artfully captivates the reader as she explores the fast-evolving language, metrics, actors and laws that are profoundly reshaping "capital" in the 21st century.'

KATE RAWORTH, author of Doughnut Economics Climate change is here and capitalism is implicated: it's programmed to privilege profit and growth over human communities and the living earth. We need to change this system - and we need to do it now. Six Capitals charts the rise of four movements designed to overthrow capitalism as we know it: multi-capital accounting, for society, nature and profit; the push for a new corporation legally bound to benefit nature and society while making a profit; ecosystem accounting for nations; and legal rights for nature, which resonate with indigenous earth-centred laws. These movements are critical for the future of human life on this planet. Together they override the profit-driven modern corporation, the growth-driven nation state and the legal status of the natural world as lifeless property. Multi-capital and ecosystem accounting, benefit corporations and the rights of nature movement are here to stay. Six Capitals tells their story, from their first emergence in the postwar era to today. This revised, updated edition is for the new generations of business leaders, entrepreneurs, activists, accountants, economists, scientists, farmers, food growers and distributors, teachers, parents, politicians, bureaucrats and concerned citizens everywhere. 'broaden financial reports to include measures of social and environmental issues and just watch how it changes the behaviour of business people. Gleeson-White makes a good case for the success of her unlikely revolutionaries.' ROSS GITTINS, Sydney Morning Herald 'Six Capitals reveals the critical role of accounting in reimagining the way we do business and make policy in the twenty-first century. It's time for everyone to pay attention.' CARL OBST, lead author, United Nations System of Environmental-Economic Accounting

Exploiting Mental Imagery with Computers in Mathematics Education-Rosamund Sutherland 2012-12-06 The advent of fast and sophisticated computer graphics has brought dynamic and interactive images under the control of professional mathematicians and mathematics teachers. The contributions are written by researchers and teachers from a variety of disciplines including computer science, mathematics, mathematics education, psychology, and design. The book is the first collected volume in a research area that is developing rapidly, and the authors pose some challenging new questions.

Stieg and Me-Eva Gabrielsson 2011-07-14 The poignant account of the 30-year life shared together by Stieg Larsson and Eva Gabrielsson. There is only one person who can tell Stieg Larsson's story other than himself - his lifelong companion and muse, Eva Gabrielsson. Here she tells the story of their 30-year romance, of Stieg's upbringing and early years, and how this shaped his morals and personality. She talks of his life-long struggle to expose Sweden's Neo-Nazis, of his struggle to keep the magazine he founded, *Expo*, alive, his difficult relationships with his immediate family, and the joy and relief he discovered writing *The Millennium* trilogy. Their story is told as a series of short vignettes, and Eva Gabrielsson speaks with rare candour and dignity, inspired only by the truth as she knows it. This book is poignant in its account of two soulmates and the life they shared, and most importantly is deeply insightful into the man everyone wants to

know better, and about whom so little is known.

Posting to Mongolia-Andrew Cuthbertson 2019-05-06 Posting to Mongolia presents an account of the life of Andrew Cuthbertson, an experienced frontier explorer of remote regions in Asia, who was based in Mongolia between 2004 and 2008. The book presents a firsthand account of the land and people as the country opened up to Western exploration and mining companies in the wake of the collapse of the former USSR. It describes Mongolia's desperate search for foreign investment that would ensure an independent future for its people, free from the influence of powerful near neighbours who had occupied the country for varying periods over the last three hundred years. Andrew represented one of the world's largest mining companies. He built an effective Mongolian professional team that searched the country for large coal deposits suitable for export to neighbouring China, and along the way provided logistical, cross cultural, and geopolitical support to that company's efforts to develop the largest then known undeveloped copper-gold deposit in the world. This book is a tribute to the Mongolians who supported him through those challenging times and made tough situations endurable.

The Structural Transformation of the Public Sphere-Jürgen Habermas 2015-01-06 This major work retraces the emergence and development of the Bourgeois public sphere - that is, a sphere which was distinct from the state and in which citizens could discuss issues of general interest. In analysing the historical transformations of this sphere, Habermas recovers a

concept which is of crucial significance for current debates in social and political theory. Habermas focuses on the liberal notion of the bourgeois public sphere as it emerged in Europe in the early modern period. He examines both the writings of political theorists, including Marx, Mill and de Tocqueville, and the specific institutions and social forms in which the public sphere was realized. This brilliant and influential work has been widely recognized for many years as a classic of contemporary social and political thought, of interest to students and scholars throughout the social sciences and humanities.

Coming Home-Jonathan Cornford 2019-01-31 Coming Home seeks to make a real and practical connection between faith, the way we live, and the great ethical and environmental challenges of our time. It takes seriously the ways in which the shape of our household economy - our work, leisure, consumption, investment and use of time - impact our relations with others, with the earth, and with God. It provides a Christian vision of daily life that holds together the profound and the practical. Coming Home discusses subjects that are central to the lives of every person who knows that faith in Christ should make a difference. In Coming Home, Jonathan Cornford joins biblical theology with analysis of contemporary problems to help chart a practical, hopeful and life-giving path through troubled times. ""In this engagingly written book, Jonathan Cornford demonstrates how the radical message of the gospel speaks to the nitty gritty of our daily life. Weaving together astute cultural observations, wise biblical insights, and practical actions, Cornford paints a way of life where community can flourish in deeply faithful ways. This book calls out not only to be read, but to be studied with your church and community as a guide for deeper discipleship in an often overwhelming world."" --Dr. Sylvia C. Keesmaat, co-author of Colossians Remixed and Romans Disarmed ""If you are at all serious about the Christian faith and what it means to follow Jesus today, then frankly, this is a dangerous book. It's dangerous because it calls us to an expression of faith that really counts in the most daily actions of life. There are no remote theories or platitudes here. No doubt, this book is a good and accessible read. But be warned, reading it is risky business. It could change your life."" --Rev. Simon Carey Holt, Author of Eating Heaven and Heaven All Around Us ""Coming Home is gracious, inspiring, daunting and practical."" --Michael Frost, Author of Surprise the World and Keep

The Music Shop-Rachel Joyce 2018-01-02 "An unforgettable story of music, loss and hope. Fans of High Fidelity, meet your next quirky love story."—People NAMED ONE OF THE BEST BOOKS OF THE YEAR BY THE TIMES (UK) AND THE WASHINGTON POST It is 1988. On a dead-end street in a run-down suburb there is a music shop that stands small and brightly lit, jam-packed with records of every kind. Like a beacon, the shop attracts the lonely, the sleepless, and the adrift; Frank, the shop's owner, has a way of connecting his customers with just the piece of music they need. Then, one day, into his shop comes a beautiful young woman, Ilse Brauchmann, who asks Frank to teach her about music. Terrified of real closeness, Frank feels compelled to turn and run, yet he is drawn to this strangely still, mysterious woman with eyes as black as vinyl. But Ilse is not what she seems, and Frank has old wounds that threaten to reopen, as well as a past it seems he will never leave behind. Can a man who is so in tune with other people's needs be so incapable of connecting with the one person who might save him? The journey that these two quirky, wonderful characters make in order to overcome their emotional baggage speaks to the healing power of music—and love—in this poignant, ultimately joyful work of fiction. Praise for *The Music Shop* "Captures the sheer, transformative joy of romance."—The Washington Post "Love, friendship, and especially the healing powers of music all rise together into a triumphant crescendo. . . . This lovely novel is as satisfying and enlightening as the music that suffuses its every page."—The Boston Globe "Magnificent . . . If you love words, if you love music, if you love love, this [novel] will be without question one of the year's best."—BookPage (Top Pick in Fiction) "Joyce has a knack for quickly sketching characters in a way that makes them stick. [The Music Shop] will surprise you."—Minneapolis Star Tribune "Rachel Joyce has established a reputation for novels that celebrate the dignity and courage of ordinary people and the resilience of the human spirit. . . . But what really elevates *The Music Shop* is Joyce's detailed knowledge of—and passion for—music."—The Guardian

The Monk from Brooklyn-Antonio Graceffo 2004-07-01 The Shaolin Temple, the birthplace of Kung Fu and modern Chinese Buddhism, is the oldest and most mysterious Kung Fu school in the world. It is an exotic and mythical destination of daydreams to millions of people. In the history of the temple, very few foreigners have ever had a chance to study there. Foreigners have been allowed to study in many of the Shaolin schools, near the temple, which have taken the Shaolin name as a marketing ploy, but less than fifty foreigners have studied at the original Shaolin Temple. Antonio Graceffo was lucky enough to be one of the few, and this is the chronicle of his experience. Antonio has twenty-five years of experience with martial arts, so it is with a knowing eye that he observed the training at the temple. But it is his background that gives him a very unique perspective. An Italian-American from Brooklyn, New York, and a former investment banker, Antonio was educated in some of the best universities that Europe and Asia had to offer. His articles are informative, humorous, and irreverent. He doesn't pull any punches writing about the filthy conditions and the diminished mental capacities of people who spent a lifetime learning to kick, but never bothered to learn to read and write. The title says it all. Put a Chinese-speaking Italian-American, from Brooklyn in the holiest of Buddhist temples, and watch the racial harmony flow.

Edgar is now a Soviet apparatchik, desperate to hide the secrets of his past life and stay close to those in power. But his fate remains entangled with Roland's, and with Juudit, who may hold the key to uncovering the truth . . . Great acts of deception and heroism collide in this masterful story of surveillance, passion, and betrayal, as Sofi Oksanen brings to life the frailty—and the resilience—of humanity under the shadow of tyranny. Interspersed through the illustrations are short texts about the artists and their interest in particular flowers, from Georgia O'Keeffe's sumptuous close-ups of Jimson Weed and cactus flowers to Matisse's roses, Keika Hasegawa's chrysanthemums, and Albert York's close study of zinnias. A wonderful collection for art-lovers, gardeners, and flower-fanciers.

The Best Simple Recipes-America's Test Kitchen 2018-11-06 The Best Simple Recipes offers more than 200 full-flavored easy-to-prepare recipes that can be on the table in 30 minutes or less in an easy-to-read paperback format. Just because time is short, it doesn't mean you have to settle for a can of soup or a sandwich for dinner, or making one of the many boring and flavorless fast recipes (which often aren't even as fast as they promise). Our test cooks have created more than 200 recipes that keep the ingredients and cooking time to a minimum and offer tons of flavor and plenty of variety. By combining steps, minimizing pans, and employing a little test kitchen trickery, our test cooks have made naturally fast recipes even faster, and they've made recipes that traditionally take hours ready for the table in half an hour. And while they used a minimum of ingredients, one thing they didn't minimize was flavor.
