BEYOND THE LIMITS AND BRAVERY-Dr. H. Abdul Radjak, DSOG Tak terasa, buku "Beyond The Limits" sudah lima tahun lalu Penulis luncurkan. Dalam kurun waktu lima tahun tersebut (2013-2018) sudah banyak penambahan pencapaian menyangkut Radjak Group. Pada tahun 2013 ketika buku tersebut diluncurkan, Penulis masih sepenuhnya mengelolanya. Sedangkan sekarang, giliran anak-anak Penulis yang mengelolanya karena estafet kepemimpinan grup bisnis keluarga ini sudah berjalan dengan baik. Lima tahun lalu Penulis ingin bercerita melalui buku bagaimana Penulis mengatasi hambatan dan kesulitan untuk kemudian mengubahnya menjadi peluang. Penulis percaya bahwa kehidupan itu seperti seseorang yang tengah mendaki gunung. Masing-masing orang punya jalan tempuhnya sendiri-sendiri yang harus dilalui dengan melewati jalan yang dibuatnya. Bagaimana kita menghadapi hambatan itu adalah bagaimana kita mengalahkannya atau menembusnya. Oleh karena itu judul bukunya "Beyond

The Limits". Setelah lima tahun berlalu, banyak hal yang ingin Penulis update sekaligus cetak ulang "Beyond The Limits". Ternyata update-nya lumayan banyak. Sehubungan dengan itu, Penulis terpikirkan untuk mengubah judulnya menjadi "Delivering Braveness". Ini sebenarnya sebuah pesan karena sepanjang kehidupan Penulis sejak merintis hingga mengembangkan Radjak Group, keberanian mengeksekusi peluang cukup besar mewarnai keberhasilan Penulis. Saat ini Penulis menemukan momentum untuk mengingatkan soal keberanian (braveness) itu pada diri Penulis sendiri dan anak-anak Penulis. Bagi Penulis tantangan keberanian itu adalah beranikah Penulis melepas pengelolaan Radjak Group pada anak-anak Penulis. Bagi anak-anak Penulis, beranikah mereka menerima estafet tanggung jawab tersebut untuk mengelola Radjak Group. Itulah alasannya kenapa judulnya "Delivering Braveness." Kendati begitu buku ini masih 80% merupakan "Beyond The Limits". Oleh karena itu kata

sambutan dari tiga sahabat Penulis (Tanri Abeng, Salim Said, dan almarhum Samsi Jacobalis) di buku "Beyond The Limits" masih Penulis sertakan di buku ini karena kaitan sejarah dan pesannya yang mendalam. Kembali Penulis kemukakan bahwa ide awal membuat buku ini datang dari anak-anak Penulis. Mereka ingin memberikan hadiah berupa kado khusus di hari ulang tahun yang khusus pula, 70 tahun, 13 September 1943 2013. Penulis terharu menemukan niat tulus mereka. Memang, bagi orangtua, hadiah terbaik dari anaknya bukanlah pemberian yang sifatnya duniawi semacam pakaian bagus, perhiasan mahal, dan sejenisnya. Anak-anak yang patuh, sukses mencapai cita-cita, dan mampu menjalankan amanah orangtua adalah hadiah terindah dan tak ternilai yang diterima oleh orangtua. Dan, tentu hadiah buku adalah sesuatu yang spesial. Maknanya luas. Manfaatnya besar. Oleh karena itu, ketika mereka mengatakan Penulis harus menulis buku otobiografi, atau semi-otobiografi, Penulis

pun setuju. Sedangkan update buku "Beyond The Limit" dilakukan sebagai kado dari anak-anak untuk ulang tahun Penulis yang ke-75 pada 13 September 2018. Penulis bersyukur bisa mencapai usia 75 tahun. Penulis tidak pernah menganggap diri Penulis ini sukses luar biasa. Namun, pencapaian yang sudah Penulis raih juga tak bisa dianggap sebagai bentuk perjuangan yang biasa-biasa saja, setidaknya jika itu dipandang dari pihak Penulis sebagai pelakunya. Penulis berjuang begitu berat, melelahkan, memakan waktu yang panjang, kadang-kadang menemukan titik nadir yang membuat Penulis menangis, putus asa, dan sepertinya hidup ini akan jatuh pada titik paling rendah. Di sisi lain, Penulis sering menemukan kegembiraan tiada tara karena perjuangan berat Penulis berhasil mencapai apa yang diinginkan. Penulis kira, hal-hal semacam itu memiliki bahan pembelajaran yang pantas Penulis bagi kepada anak, keluarga, relasi, mahasiswa-mahasiswa, dan juga kepada banyak orang. Karena langsung ataupun tidak, kita belajar dari

kehidupan orang lain. Ketika melihat orang lain sukses, kita meniru mereka dengan cara kita. Ketika mereka gagal, kita menemukan cara untuk menghindari cara itu agar tidak mengalami kegagalan serupa. Orang lain adalah pembelajaran bagi kita. Jika mereka semua membuat buku, mereka menyumbang bahan pembelajaran yang sama. Tentu saja ada orang yang memiliki bahan pembelajaran yang penuh, ada yang hanya poin-poin tertentu. Buku ini Penulis tulis sebenarnya untuk sharing pengalaman hidup, syukur-syukur menjadi bahan pembelajaran, terutama bagi anak-cucu dan keturunan Penulis. Bahwa ayahnya dulu pernah menjalani kehidupan seperti itu. Mungkin masih cocok diterapkan di kehidupan mereka saat ini, mungkin juga tidak. Penulis tak mau menggurui. Penulis bahkan tak mau menunjukkan poin-poin mana yang harus atau pantas ditiru. Penulis alihkan saja apa adanya karena buku ini sifatnya semi-otobiografi. Tak menarik jika isinya hanya poin-poin. Keberhasilan Penulis dalam hidup ini tak datang dengan

sendirinya. Penulis tak mungkin mampu mendirikan kelompok bisnis yang bernama Radjak Group ini tanpa bantuan banyak pihak. Maka, menjadi kewajiban Penulis untuk berterima kasih kepada mereka.

Optical WDM Networks-

Biswanath Mukherjee
2006-06-15 Research and development on optical wavelength-division multiplexing (WDM) networks have matured considerably. While optics and electronics should be used appropriately for transmission and switching hardware, note that "intelligence" in any network comes from "software," for network control, management, signaling, traffic engineering, network planning, etc. The role of software in creating powerful network architectures for optical WDM networks is emphasized. Optical WDM Networks is a textbook for

graduate level courses. Its focus is on the networking aspects of optical networking, but it also includes coverage of physical layers in optical networks. The author introduces WDM and its enabling technologies and discusses WDM local, access, metro, and long-haul network architectures. Each chapter is self-contained, has problems at the end of each chapter, and the material is organized for self study as well as classroom use. The material is the most recent and timely in capturing the state-of-the-art in the fast-moving field of optical WDM networking.
